# Quality solutions for modern living

Prefab homes and kitchen cabinetry for homeowners, builders and developers.

## About Ecovie Group

Ecovie Group is a South Australian building work contractor dedicated to delivering high-quality prefabricated housing solutions across the Adelaide region. The business partners with leading international manufacturers to bring advanced light-steel-frame prefab systems to the local market.

### 1. Prefabricated Homes

Ecovie Group specialises in the supply and installation of modern prefab homes designed for efficiency, durability and streamlined construction. Light-steel-frame systems support structural integrity and energy performance.

- Prefabricated home supply and sourcing.
- Professional installation by qualified South Australian contractors.
- Technical compliance support for NCC, Australian Standards and council requirements.
- End-to-end project coordination from planning to handover.

### 2. Kitchen Cabinetry

Ecovie Group also focuses on kitchen cabinetry as a core service, providing cabinetry supply and installation solutions for residential projects. These solutions are intended to complement modern homes with practical and attractive kitchen spaces.

- Kitchen cabinetry supply.
- Professional installation.
- Suitable for new homes and residential projects.

### Our Vision

To make high-quality, compliant and modern prefabricated housing accessible to homeowners, builders and developers throughout Adelaide, while supporting residential projects with kitchen cabinetry solutions.
